

It Doesn't Get Any Sweeter!

Nancy, was having an incredibly hectic week and still had to plan her son's 8th birthday party that was happening in less than 5 days. With one quick call to Powell's she booked a birthday party for her son's special day with his friends. "All the kids had an amazing time on the Scavenger Hunt searching for their candy. I had fun too eating a giant scoop of chocolate gelato. Powell's saved me from a birthday disaster and my son had an unforgettable 8th birthday. Thanks Powell's!"

Remember Yesterday. Today.

Take a journey into a magical candy wonderland filled with over 5,000 sweets and tasty old time favorites at Powell's Sweet Shoppe. With his sugar-induced vision to offer a nostalgic re-creation of the classic and bygone era of a local neighborhood candy store Michael Powell, the founder and chief candy man, opened his first Powell's Sweet Shoppe in Windsor, California in 2003.

Powell's creates an experience that encourages customers to say, "Oh, I remember this..." with that long lost look in their eyes. Powell's brings community to its customers by touching the sticky hand of every guest and reminding them of those memories close to their hearts or the creation of new memories. Besides the hundreds of old-fashioned and hard to find favorites, Powell's serves gelato and a variety of homemade chocolates. With sugary treats in hand, guests can sit back and watch *Willy Wonka and the Chocolate Factory* in the mini-theater. With all the delightful and enchanting experiences that Powell's Sweet Shoppe has to offer it is no wonder that the *San Francisco Chronicle* dubbed Powell's as "The Smithsonian of candy stores."
